FOR IMMEDIATE RELEASE:

ANNE'S WORLD UNVEILS NEW VERSION OF ANNESDIARY.COM

Updated Version Features a New Design with Vibrant Colors, a Streamlined Registration Section, a Live Help Line and a New Section for Teen Users

TORONTO – April 24, 2008– Anne's World , Inc. (OTCBB: LGHL) and its subsidiary **Anne's World**, today announced that it has unveiled a new and improved version of Annesdiary.com, the first secure social networking site for children that uses biometric technology to verify the age and identity of users.

The site now has a new design with vibrant background colors, a user-friendly registration section, a live help line where technicians can actually log into a user's computer and do the actual setup, new games and puzzles and an easy-to-use online store.

In addition, a new section for girls ages 13-15 called **Anne's Teens** is now available as part of Annesdiary.com. The new section includes a horoscope file, an instant message program, chat rooms, a photo sharing program, an interactive events calendar, videos, music and other features targeting teen girls.

"We upgraded Annesdiary.com to make it more user friendly and added features that are attractive to our users while keeping the site's state-of-the-art security program our number one focus. In regards to Anne's Teens, we created this section essentially as a forum for teen girls to interact with their peers but with the same security program we have for Annesdiary.com," said Pino Baldassarre, Chief Executive Officer of Anne's World , Inc. "With recent news stories reporting that teens that use other social networking sites aren't very careful about the information they put on their pages, we created Anne's Teens to give parents the added piece of mind that their daughters are using an online environment that is safe an
